Any way you slice it, our products maintain excellent performance attributes for long periods of time, allowing you more time to focus on other responsibilities.

OUR SHARED ENTREPRENEURIAL VALUES

Just as farmers find themselves putting in long hours in the heat and solving problems in the moment, we see chefs bring the same dedication to creating delicious meals in their kitchens. Shared resilience and ability to pivot when setbacks arise is why we feel an entrepreneurial kinship between chefs and our Land O'Lakes farmer-owners.

With humble beginnings in 1921, Land O'Lakes began when a group of farmers formed a cooperative to sell products together, which meant they'd work together as members, sharing profits and benefits.

And today, we put farmers first because our company ownership includes 1000+ farmers who produce milk used in our products.

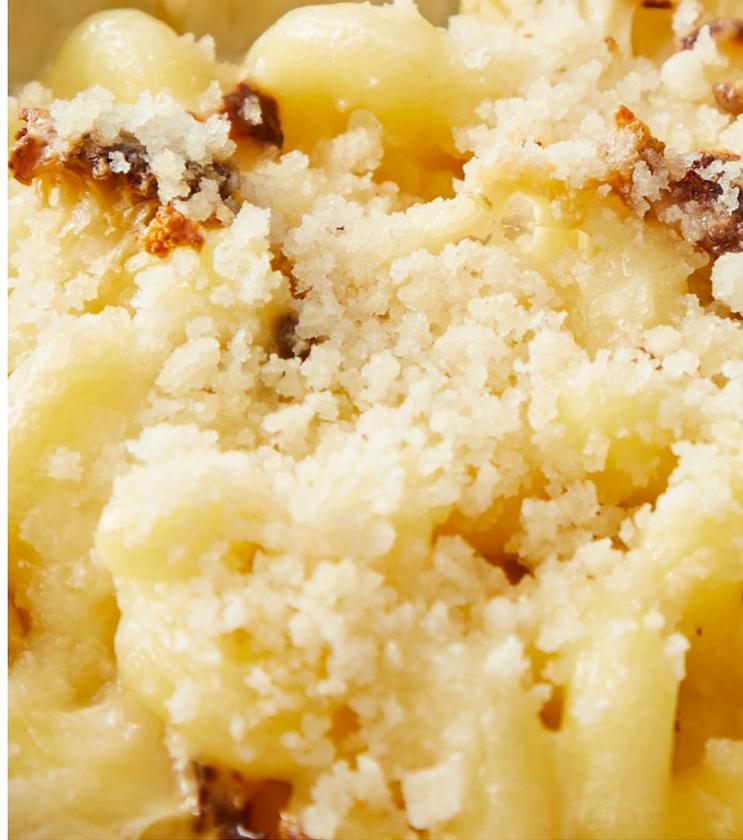

And when someone buys our products, it benefits those farmers and their communities. So, their passion for being defiantly cooperative while nourishing people has deep roots.

And that's something we share with the farmer-owners here at Land O'Lakes. It's a spirit that shows in our products, our recipes and our commitment to your kitchen staff.
